WHY ILLUMINATED CONCEPTS

Since we opened our doors in 1988, the mission of Illuminated Concepts is to always provide an amazing experience for our clients. We provide creative outdoor lighting designs, professional installation, and world-class customer service.

Ways We Achieve This

- We implement the latest innovative and creative lighting design strategies.
- We use high-quality, durable lighting fixtures and materials, most with lifetime warranties. This ensures you and your family can enjoy your enhanced outdoor living space for many trouble-free years.
- We utilize craftsmanship installation methods for every one of our lighting projects. Our incredible installation teams consistently get raving 5-star reviews.
- We provide great customer service from our professional office staff.
- We offer ongoing lighting maintenance programs to keep your system looking and operating like new.

The dedicated team at Illuminated Concepts prides itself in ensuring that all of our clients receive a professional, stress-free contractor experience. Our priority is to keep each project on budget, on-time and provide an amazing experience both visually and professionally.

“Thank you for your fine craftsmanship...You have exceeded our expectations with the level of quality that you provided us.”

The Ritz Carlton - Dana Point

HOW WE STARTED

Illuminated Concepts was founded in 1988 by Chuck Evans, our owner and Chief Designer. Prior to starting Illuminated Concepts, he began his lighting career in New York where he produced and directed innovative stage shows that had special effects lighting that he also created. Using all his younger creative years of lighting experience and his business degree, he started our company Illuminated Concepts. Since 1988, Chuck has earned our company a reputation for well thought out creative designs and business innovations.

"We love lighting, it's the jewelry of the house. Chuck came out and discussed his specialty is not on the lighting but more on the effects of the lighting..."
Brenda - Customer Since 2020

7 BENEFITS OF LED LANDSCAPE LIGHTING

1. Outdoor Lighting Adds to Security

Security is a byproduct of tastefully designed and installed landscape lighting. An unwelcome visitor is much less likely to approach a well-lit home.

2. Outdoor Lighting Increases Home Value

It is obvious a home that looks elegant at night will add value and quicken the home sale. Enjoy the beauty while you live there and take it to the bank when you sell.

3. Landscape Lighting Increases Time and Utilization of Outdoor Living Spaces

Extend the hours of outdoor use for your family and friends well into the evening with patio lighting, Bistro string lighting, and landscape accent lighting. Our innovative designs will expand the use and enjoyment of your backyard pool, BBQ and patio areas.

4. Improving the Neighborhood with Tasteful Landscape Lighting

Outdoor Lighting provides a warm and welcoming gesture for your friends and neighbors while adding value to the neighborhood with a sense of added curb appeal and pride of ownership.

5. Outdoor Lighting Provides Safety

Eliminate unnecessary falls or injuries. Increase safety at steps and pathways with proper illumination in these dark areas.

6. Landscape Lighting Extends Your Interior Living Space

This expanded lighted space is experienced every night from inside the home. Glass doors and windows turn into dramatic landscape paintings if the outdoor lighting design was intentionally designed with this in mind.

7. Outdoor Lighting Adds FREE Real Estate

Many homeowners purchase their property because of the beautiful backyards and the views beyond their property. It's a shame that these valuable visual assets disappear into the darkness.

“They went above and beyond to do the best possible job. Chuck promised that our house would look like a resort once they were finished, and he wasn’t kidding. Our house went from being almost totally dark outside at night to looking like a five star resort...”

Laura - Customer Since 2021

“I wanted a landscape lighting company and
ended up with the PREMIER one in the OC...
No cookie-cutter designs here...”
Rebecca - Customer Since 2013

OUR LIGHTING SERVICES

Customized Outdoor Lighting Designs

Illuminated Concepts prides itself on award winning landscape lighting design services. We have learned a lot in 30+ years of professional landscape lighting design experience. We place our highest priority on accenting the unique architectural features and focal points of your beautiful home and landscape. Our motto is “we sell effects, not just fixtures.” We are lighting designers, not fixtures salespeople. We often suggest creative lighting concepts that our clients have never even thought of. Your home will look stunning at night when you choose Illuminated Concepts as your professional landscape lighting design and installation professionals.

Outdoor Lighting Installation

We have 30+ years of experience in the professional installation of outdoor lighting systems. We are licensed and have all the necessary insurances. Our installation process will not disturb your home or yard. Our 5 star installation teams will leave your home clean, and you will not even know we have been there until nightfall when you see the fantastic transformation of your new lightscaped home and yard.

Outdoor Lighting Repair and Service

Since 1988, Illuminated Concepts has offered repairs, upgrades, and service contracts that will keep your lighting investment up to date and perform like new.

Ongoing Outdoor Lighting Maintenance

At Illuminated Concepts, we offer different outdoor lighting maintenance packages ranging from simple annual cleaning of the fixtures, to a complete 100% warranty for all lighting installed by us. Some packages even include a discount on additional services. We are in this for the long run.

Outdoor Audio

Your backyard never sounded so good. A custom outdoor audio system adds a soothing and fun atmosphere to your outdoor living space. Our outdoor audio systems are the icing on the cake for your outdoor entertainment and enjoyment.

RGB Color Accent Lighting

Add color to life. Custom accent colors will bring spice and fun to your home and yard. Our systems can be warm white all year long and will have the ability to change to a specified color for holidays and special events.

11 AMAZING CUSTOM EFFECTS FOR YOUR HOME

“You might not think that lighting can change the whole look of your home but with this company and their level of expertise it really does.”

Catherine - Customer Since 2023

1. Architectural Accent Lighting

Accent unique architectural features of the home like turrets, peaks, facades, and dormers. We also accent features on the 2nd story because unique architecture doesn't stop on the 1st floor.

2. Garage Lighting

This connects the left and right sides of the front yard lighting design. It also creates ambient driveway lighting and accents garage doors.

3. String/Bistro Lighting

String lighting is a great way to add atmosphere and ambient illumination to your patio or BBQ gathering areas.

4. Path Lighting

Reduce tripping hazard on walkways and steps, also accents color in planters.

5. Pool Area Lighting

Accent water and rockscape features in and around the pool areas.

“I would recommend this company
to anyone that is looking for quality
work and great lighting and sound!”

Miles - Customer Since 2021

6. Moon Lighting

Create a dappling of light and darkness while also creating soft ambient lighting.

6

This company is over the top amazing! Chuck is exceptional at how he decides where each light will be placed. He even made his own lights for some dense plants we have around my pool. His employees were very respectful and hard working. This is the only company you should trust to light your landscape.

Michelle - Customer Since 2021

7. Shadow Lighting

Create a textured effect on walls and facades.

8. Inside Out Lighting

Dramatically expand interior living spaces by creating nighttime landscape paintings outside windows and doors.

9. Patio Lighting

Increase utilization of patio and BBQ areas with properly designed patio lighting.

10. Free Real Estate Lighting

With fixtures strategically placed on the property, you can dramatically extend your yard by accenting features beyond the yard such as trees and slope areas.

For more effects see our gallery by scanning here!

11. Fountain Lighting

Create a rippling effect with underwater lighting and accent fountain features.

12. RGB Lighting

Program any color scheme you want. Choose warm white or a variety of colors to match your favorite holiday or special occasion.

"If you are looking for the best in outside lighting - look no further. You can hire any company to do lighting but do they stand behind their work, do they maintain and repair at a reasonable price, are they good at responding to your calls, do they make you feel like a valued customer even years later? Illuminated Concepts DOES! Call them now!"
